@ginppian

WHO AM I?

I consider myself passionate about ubiquitous technology, especially the development of mobile applications. I like the native development (in both main platforms, iOS and Android), I consider that it feeds all the sensors that the device brings and enriches each application. I like the use of good programming practices, such as design patterns and clean architecture. Before making an implementation, I consider that the tests are very important. And for the optimization of the application, the efficiency of the algorithms is very important too. I am currently interested in the implementation of Artificial Intelligence and Deep Learning in mobile applications.

AndroidStudio Xcode Workbench Git XAMPP

EXPERIENCE

08/2016 - 12/2016 iOS Developer Individual: David Santiago Fernandez Bermejo Morales. In Workana.com

Freelance Tourist center "Lagunas De Ruidera" Spain.

CoreLocation / Local and Remote Notifications / Git and Bitbucket

01/2017 - 03/2017 iOS Developer cuvitek

UFind App, iTunes ID: 1220932121.

REST APIs and network requests / Facebook SDK / Firebase Cloud Messaging

04/2017 - 10/2017 Android Developer Financial "Para Crecer".

Internal App

REST APIs and native network requests / Location and Google Maps / Responsive layouts

11/2017 - Current iOS Developer BBVA Bancomer

BBVA Plan - BBVA Send - BBVA Multipagos - Somos BBVA

MVVM - VIPER - Clean Architecture / Design Patterns (Observer, Delegate) / CoreData -

Realm / Keychain / Autolayouts / Scrum Agile

EDUCATION

2010 - 2016 Licenciatura en Ingeniería en Ciencias Computacionales

Benemérita Universidad Autónoma de Puebla

Ganador 3er. Concurso Estudiantil, Prototipos de Innovación Tecnológica 2016 con aplicación para la prevención de feminicidios en el estado de Puebla, "BUSSA".

Escuela de Verano Computación 2015, DEPARTAMENTO APLICACIONES DE MICROCOMPUTADORAS. Investigación con Dr. Harold V. McIntosh (Pionero de la computación en México).

Escuela de Verano Computación 2014, DEPARTAMENTO APLICACIONES DE MICROCOMPUTADORAS. Investigación con Dr. Harold V. McIntosh (Pionero de la computación en México).

Fundador "Laboratorio Harold V. McIntosh" (iLab BUAP FCC). Mantenimiento Preventivo y Correctivo a equipo Apple, y desarrollo de aplicaciones móviles. 2013-2016.

Escuela de Verano Computación 2013, DEPARTAMENTO APLICACIONES DE MICROCOMPUTADORAS. Investigación con Dr. Harold V. McIntosh (Pionero de la computación en México).

Integrante Comunidad "Sistema Operativo Aztli Gnu/Linux" 2010-2013.

LANGUAGES HOBBIES NON PROFIT

Spanish - native I like watch movies and if i have time i **English** - proficient love read universal literature.

I help other people learn to code in a basic way.
